

Cucire Insieme

Globally, women are being hit harder by the coronavirus pandemic as more women work in low-paying, insecure, and informal jobs. (United Nations)

***These women are raising future generations.
Their resilience is the strength of the entire community.***

The Association for the Integration is launching a new campaign, producing masks for a good cause! Your donation will go towards employing Migrant women living in Modena to sew masks, and to support the AIW in increasing opportunities for migrant women by growing its programs.

The Association for the Integration of Women is a non-profit association dedicated to providing opportunities for migrant women to spread roots and flourish through skill-building, building of community networks, and job insertion.
